Objective

I am a Biomedical Physics graduate with hands-on training in diagnostic radiology and nuclear medicine. I aim to leverage my technical expertise and problem-solving skills to contribute effectively to the healthcare industry and enhance patient care through advanced medical technology.

Education

Yarmok university

Bachelors of biomedical physics

2019-2024

Experience

Alpha medical clinic

8-2024 - 11-2024

Diagnostic radiology

Diagnostic Radiology Intern

Operated and maintained X-ray equipment under supervision.

Assisted in patient preparation and image acquisition for diagnostic purposes.

Providing an exceptional reception experience for patients by managing daily operations efficiently and professionally.

Recording patient data accurately within medical systems while adhering to confidentiality and privacy standards.

Organizing and coordinating appointments between patients and doctors to ensure smooth and efficient medical operations.

Responding to various patient inquiries and providing clear information about medical services and necessary procedures.

Dealing with emergency situations calmly and taking appropriate action in coordination with medical teams.

Promoting a friendly and professional work environment by building positive relationships with patients and medical staff.

Supervising the organization of medical documents and managing files to ensure data accuracy and ease of access.

Contributing to improving the patient experience by providing full support and quick solutions to their requirements.

Gained experience in handling nuclear imaging equipment.

Assisted in performing diagnostic procedures using radioactive isotopes.

Freelance mathematics

2024 - At now

Theacher of mathematics

Providing high-quality private mathematics lessons to school and university students, with noticeable improvements in students' academic performance.

Designing innovative and personalized educational programs that meet the needs of each student, with a focus on developing a deep understanding of mathematical concepts.

Using effective teaching strategies to simplify complex theories and stimulate critical thinking and problem solving.

Managing work independently, including scheduling lessons, communicating with parents, and achieving customer satisfaction.

Developing strong interaction and communication skills to build positive and productive relationships with students and parents.

Achieving significant improvements in students' grades and self-confidence levels in mathematics.

Skills

Organization Diagnostic imaging techniques (X-ray and nuclear medicine)

Analytical and problem-solving abilities

Proficient in computer applications

Strong organizational and multitasking skills

Effective teamwork and communication

Flexibility and adaptability to dynamic environments

Language

- Arabic :Native
- English : Good

Volunteer

Nahno platform

Engaged in youth development activities to foster community growth.

Princess pasma center

Youth Committees: Organized events and initiatives to empower young individuals.

Knights of change

Actively participated in community service and social outreach programs.

Tarabut Charity Team

Supported charitable campaigns aimed at assisting underprivileged families.

Crown prince foundation

Promoted leadership and community service among Jordanian youth.
