EDUCATION || Training

Occupational Safety and Health Institute

Amman, Jordan

Certified Occupational Health and Safety Specialist

July 28 – Nov 14, 2024

Main Subjects: Occupational Health and Safety Laws and Regulations, Risk Assessment and Management, Safety Audits and Inspections, Report Writing, etc.

University Of Jordan

Amman, Jordan

Bachelor, Computer Engineering

Feb 2023

Main Subjects: Programming Languages, Data Structures and Algorithms, Digital Logic Design, Database Systems, Networking, Embedded Systems, Electronics and Circuit Analysis.

EXPERIENCE

Data Management

Zarqa, Jordan

Lutheran World Federation

Feb 2024 – July 2024.

- Developed and presented monthly reports on program performance, demonstrating expertise in report writing and project management.
- Executed precise data entry and maintained database integrity, reflecting strong attention to detail and data management skills.
- Trained new volunteers and managed boutique operations, showcasing leadership and inventory management capabilities.

Artificial Intelligence Intern

Remote

Tahaluf Al Emarat Technical Solutions LLC

Mar 2023- Sep 2023

- Acquired proficiency in fundamental data science concepts and applied Exploratory Data Analysis (EDA) techniques to derive actionable insights from diverse datasets.
- Utilized NumPy, Pandas, Seaborn, Scikit-Learn, and Matplotlib for advanced data manipulation, visualization, and the development of data analysis dashboards.
- Gained hands-on experience with Machine Learning algorithms and implemented advanced data processing techniques to support informed decision-making.

Private Math Tutor

Zarqa, Jordan

Self Employed

Jun 2021- Jul 2023

- Provided customized math tutoring to high school students, adapting sessions to meet individual learning needs and improving academic performance.
- Conducted regular assessments and modified teaching methods to improve student learning outcomes, demonstrating strong instructional and adaptive skills.
- Managed client schedules effectively and engaged with clients to deliver a personalized tutoring experience, demonstrating organizational and client-focused abilities.

Data Entry Specialist

Remote

Freelance

Jun 2019- Jun 2021

- Performed accurate and efficient data entry for various clients, ensuring high precision and attention to detail.

- Utilized Excel and Word for meticulous data processing, organization, and formatting.
 - Collaborated closely with clients to customize data entry solutions, meeting specific needs and delivering effective results.
-

SKILL

Technical Skills:

- **Programming Languages:** Python, Java, HTML, CSS, SQL
- **Data Analysis & Visualization:** Pandas, NumPy, Matplotlib, Streamlit, Tableau, Power BI
- **Machine Learning:** Scikit-Learn, Deep Learning, YOLO
- **Development Tools:** VScode, Colab, Jupyter, GitHub, Git
- **Database Management:** MySQL
- **Design Tools:** Blender, Figma
- **Microsoft Office:** Word, Excel, PowerPoint
- **Presentation Tools:** Canva, Prezi
- **Laboratory Tools:** LTspice, LaTeX

Soft Skills:

- **Communication:** Excellent verbal and written communication skills.
 - **Report Writing:** Proficient in preparing clear and detailed reports for various audiences.
 - **Problem-Solving:** Strong analytical and critical thinking abilities.
 - **Team Collaboration:** Effective in working within team settings and contributing to group projects.
 - **Time Management:** Skilled in prioritizing tasks and meeting deadlines.
 - **Adaptability:** Quick to adjust to new challenges and changing environments.
 - **Attention to Detail:** Meticulous in reviewing work for accuracy and completeness.
-

PROJECTS

AI for PCB Component Classification

- Annotated datasets with **labelImg**; achieved **89.9% accuracy** using **YOLOv5**.
- Developed **reports** on model performance.

Used Car Price Prediction

- Handled missing data with **ML algorithms**; performed **EDA**.
- Trained models with **Polynomial Regression, KNN, Random Forest**; created **interactive dashboards**.

Real Estate Analytics – AQAR

- Conducted **EDA** and applied **machine learning** for accurate property valuation.
- Designed **Power BI dashboards** and **3D visualizations**; authored **detailed reports**.

Banking Marketing Analysis

- Analyzed datasets with **EDA** and optimized models using **ML techniques**.
- Created **LaTeX reports** and **dashboards** for data trends
