Communication

Highly motivated and results-oriented IT Consultant Engineer with a strong track record of success in delivering complex projects and presentations. As a former IT Engineer with 27 years of experience, I possess a deep understanding of IT systems and their vulnerabilities. In my current role as a Cybersecurity Advisor, I have successfully led and presented critical security assessments to executive leadership, receiving rave reviews for my clear communication, insightful analysis, and ability to effectively convey complex technical information to non-technical audiences.
